

DAVID SOLIS

Third-Year Computer Science Student

@dsolishn@pm.me México www.korealm.tech kosail kosail on Codeberg

EXPERIENCE

Full Stack Developer

Undisclosed company

7 Months Mexico

- Designed end-to-end solutions using React, and cross-platform Tauri apps.
- Skilled in backend development and RESTful architectures.
- Currently developing a MQTT system to monitor embedded devices in the prod line.

Project Coordinator & Tier 2 Tech Support

Undisclosed company

2 years Honduras

- Coordinated with U.S.-based Network Operations Centers (NOCs) for the maintenance of networking infrastructure in hotels.
- Assigned technical tasks to engineers, tracked tickets, and maintained communication with clients, managers, and suppliers.
- Provided technical support to hotel clients in the U.S. regarding network connectivity (Help desk tier 2).

PROJECTS

Reworked Labs

Internal project at undisclosed company

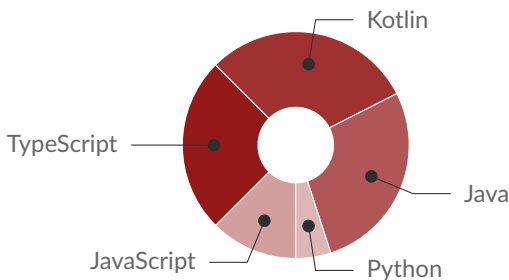

Led the full rewrite of Digital Labs, a system that streamlines communication between production lines and QA labs. Built a new React 19 + TypeScript web app, a Tauri kiosk interface for factory docks, and a Quarkus 3 backend, significantly improving traceability, operational efficiency and security.

KVantage

Available on GitHub

A desktop app with easy access to essential device settings for Lenovo laptops on Linux. Allow users to switch performance profiles, battery thresholds, and rapid charge. Built with Kotlin + Compose Multiplatform, with a backend service written in Go.

TECH SKILLS

ABOUT ME

I build with TypeScript, but create magic with Kotlin. I'm passionate about developing full-stack apps, and Linux. I love Linux and Open Source.

REALLY PROUD OF

Data Science Diploma
Issued by Tecnológico de México (2024), on R lang and Python

Cisco ECMS 1
Focused on networking and Cisco Cloud Solutions

Innovatec 2024 Regional Finalist
Presented a Kotlin Multiplatform app with a Spring Boot 3 backend

STRENGTHS

Self-motivated Focused Team player
Leadership skills

Experience with Linux servers Docker
Wordpress & Moodle admin Git C & C++
Svelte SQL Server 2016 Oracle DBMS
